Wolverdene Special School
Risk Assessment Policy 2026

Produced by:	Nathalie Akhmatova, Headteacher
Approved by School: Headteacher: Nathalie Akhmatova Date: 9th July 2026	Signature: 
Approved by Governing body: Chair: Jo Lloyd Date: 9th July 2026	Signature: 
This policy will be reviewed every 3 years. This policy will be due for review in June 2029	

1. Aims

The school aims to ensure that:

- All risks that may cause injury or harm to staff, pupils and visitors are identified, and all control measures that are reasonably practicable are in place to avoid injury or harm
- Risk assessments are conducted and reviewed on a regular basis

2. Legislation and statutory requirements

This policy is based on the following legislation and Department for Education (DfE) guidance:

- Regulations 3 and 16 of The Management of Health and Safety at Work Regulations 1999 require employers to assess risks to the health and safety of their employees, including new and expectant mothers
- Regulation 4 of The Control of Asbestos Regulations 2012 requires that employers carry out an asbestos risk assessment
- Employers must assess the risk to workers from substances hazardous to health under regulation 6 of The Control of Substances Hazardous to Health Regulations 2002
- Under regulation 2 of The Health and Safety (Display Screen Equipment) Regulations 1992, employers must assess the health and safety risks that display screen equipment pose to staff
- Regulation 9 of The Regulatory Reform (Fire Safety) Order 2005 says that fire risks must be assessed
- Regulation 4 of The Manual Handling Operations Regulations 1992 requires employers to conduct a risk assessment for manual handling operations
- The Work at Height Regulations 2005 say that employers must conduct a risk assessment to help them identify the measures needed to ensure that work at height is carried out safely

- First aid in schools, early years and further education - GOV.UK (www.gov.uk) says schools must carry out a risk assessment to determine what first aid provision is needed
- Prevent duty guidance - GOV.UK (www.gov.uk) states that schools are expected to assess the risk of pupils being drawn into terrorism
- The Health and Safety Executive (HSE) say schools that manage their own pools must conduct a risk assessment

A table of all the risk assessments schools are required to have in place can be found in appendix 1 of this policy.

3. Definitions

Risk assessment	A tool for examining the hazards linked to a particular activity or situation, and establishing whether enough precautions have been taken in order to prevent harm from them based on their likelihood and their potential to cause harm
Hazard	Something with the potential to cause harm to people, such as chemicals or working from height
Risk	The chance (high or low) that people could be harmed by hazards, together with an indication of how serious the harm could be
Control measure	Action taken to prevent people being harmed

4. Roles and responsibilities

4.1 The local authority and governing board

Hampshire County Council has ultimate responsibility for health and safety matters in the school, but delegates responsibility for the strategic management of such matters to the school's governing board.

The governing board delegates operational matters and day-to-day tasks to the headteacher and staff members.

Hampshire County Council as the employer, has a duty to:

- Assess the risks to staff and others affected by school activities in order to identify and introduce the health and safety measures necessary to manage the risks
- Inform employees about risks and the measures in place to manage them

4.2 The Headteacher

The Headteacher, or in the Headteacher's absence appropriately trained staff members, are responsible for ensuring that all risk assessments are completed and reviewed.

4.3 School staff and volunteers

School staff are responsible for:

- Assisting with, and participating in, risk assessment processes, as required

- Familiarising themselves with risk assessments
- Implementing control measures identified in risk assessments
- Alerting the Headteacher to any risks they find which need assessing

4.4 Pupils and parents

Pupils and parents are responsible for following the school's advice in relation to risks, on-site and off-site, and for reporting any hazards to a member of staff.

4.5 Contractors

Contractors are expected to provide evidence that they have adequately risk assessed all their planned work.

5. Risk assessment process

When assessing risks in the school, we will follow the process outlined below.

We will also involve staff, where appropriate, to ensure that all possible hazards have been identified and to discuss control measures, following a risk assessment.

Step 1: identify hazards – we will consider activities, processes and substances within the school and establish what associated-hazards could injure or harm the health of staff, pupils and visitors.

Step 2: decide who may be harmed and how – for each hazard, we will establish who might be harmed, listing groups rather than individuals. We will bear in mind that some people will have special requirements, for instance pupils with special educational needs (SEN) and expectant mothers. We will then establish how these groups might be harmed.

Step 3: evaluate the risks and decide on control measures (reviewing existing ones as well) – we will establish the level of risk posed by each hazard and review existing control measures. We will balance the level of risk against the measures needed to control them and do everything that is reasonably practicable to protect people from harm.

Step 4: record significant findings – the findings from steps 1-3 will be written up and recorded in order to produce the risk assessment. A risk assessment template can be found in appendix 2 of this policy.

Step 5: review the assessment and update, as needed – we will review our risk assessments, as needed, and the following questions will be asked when doing so:

- Have there been any significant changes?
- Are there improvements that still need to be made?
- Have staff or pupils spotted a problem?
- Have we learnt anything from accidents or near misses?

Step 6: retaining risk assessments – risk assessments are retained for the 3 years after the length of time they apply. Risk assessments are securely disposed of.

6. Monitoring arrangements

Risk assessments are written as needed and reviewed by the headteacher and other appropriately trained staff members.

This policy will be reviewed by the Headteacher every three years and approved by the Governing body of the school.

7. Links with other policies

This risk assessment policy links to the following policies:

Health and safety

First aid

Medical policy

Equalities, Safeguarding and Equal Opportunities Statement

Wolverdene, in all policies and procedures, will promote equality of opportunity for students and staff from all social, cultural and economic backgrounds and ensure freedom from discrimination on the basis of membership of any group including gender, sexual orientation, family circumstance, ethnic or national origin, disability (physical or mental) religious or political beliefs.

As part of our commitment to meet the Public Sector Equality Duty (PSED), Wolverdene school aims to:

- Provide opportunity to all
- Foster good relations, and create effective partnership with all sections of the community
- Only take actions which do not discriminate unlawfully in service delivery, commissioning and employment
- Provide an environment free from fear and discrimination, where diversity, respect and dignity are valued
- Demonstrate zero tolerance to any form of bullying, harassment or abuse.

Appendix 1: statutory risk assessments checklist

The following table lists the risk assessments that schools are required to have in place.

Statutory or mandatory risk assessment	✓	Completed by	Date of review
Workers under the age of 18			
Asbestos			
Substances hazardous to health			
Display screen equipment			
Fire			
First aid			
Manual handling			
Working at height			
Children being drawn into terrorism			
Swimming pools (if applicable)			

WOLVERDENE SCHOOL

Risk Assessment Template

Location / Site	
Activity	
Assessment date	
Assessment serial number	

Identify hazards	Record all hazards that could cause harm or injury – add appropriate detail about the type and location of hazards

Identify people at risk		
Employees		
Pupils		
Members of the public		

Existing level of risk			
HIGH			

Control measures	List your control measures required to reduce risk – add appropriate detail about the type and location of controls

Remaining level of risk			

Assessor's comments	
Assessment will be made available to all staff involved with the activity and available in main risk-assessment file (School Office).	

Name of assessor	Signature of assessor	Date

Headteacher's comments	

Name of Headteacher	Signature of Headteacher	Date

Risk assessment reviews	Set future review dates & sign/comment upon completion

Review date	Reviewed by	Reviewer signature	Remarks
