

Wolverdene Special School

Child Protection Policy – September 2018

Produced By:	P Van Walwyk, Headteacher
Approved for School:	
Headteacher:(Signature)
Date:	
Approved by Governing Body:	
Chair/Deputy:(Signature)
Date:	

Introduction

Wolverdene Special School fully recognises its moral and statutory responsibility to safeguard and promote the welfare of all children and for safeguarding children within the Hampshire Safeguarding Children Board (HSCB) Child Protection Procedures.

Wolverdene Special School makes every effort to provide a safe and welcoming environment underpinned by a culture of openness where both children and adults feel secure, able to talk and believe that they are being listened to. We maintain an attitude of “it could happen here” where safeguarding is concerned.

Our policy applies to all staff, governors and volunteers working in the school. It should be read in conjunction with our Safeguarding Policy 2018.

The purpose of this policy is to provide staff, volunteers and governors with the framework they need in order to keep children safe and secure in our school and to inform parents and guardians how we will safeguard their children whilst they are in our care.

Specific guidance is available to staff within the procedure documents.

Legal context

Section 175 (maintained schools) or section 157 (independent schools and academies) of the education act 2002.

Children act 2004 & 1989

Guidance

Hampshire safeguarding children board [protocols and guidance](#) and their [procedures](#)
[Working together to safeguard children 2018](#)
[Keeping children safe in education 2018](#)
[Disqualification under the childcare act 2006 \(2015\)](#)

Definitions within this document:

Child Protection is an aspect of safeguarding, but is focused on how we respond to children who have been significantly harmed or are at risk of significant harm.

The term **Staff** applies to all those working for or on behalf of the school, full time or part time, in either a paid or voluntary capacity. This also includes parents and governors.

Child refers to all young people who have not yet reached their 18th birthday. On the whole, this will apply to pupils of our school; however the policy will extend to visiting children and students from other establishments

Parent refers to birth parents and other adults in a parenting role for example adoptive parents, step parents, guardians and foster carers.

Abuse could mean neglect, physical, emotional or sexual abuse or any combination of these. Parents, carers and other people can harm children either by direct acts and / or failure to provide proper care. Explanations of these are given within the procedure document.

Procedures

We will follow the procedures set out by the Local Safeguarding Children Board (HSCB) and take account of guidance issued by the Department for Education.

The school will:

- Ensure it has a Designated Safeguarding Lead (DSL) who will undertake regular, appropriate training for this role (Paul Van Walwyk, Headteacher)
- Ensure it has a member of staff who will act in the absence of the DSL (Dwane Eacock, Head of Pupil Services)
- Ensure there is a nominated governor, (Laura Bell, Chair of Governors) who will receive reports of allegations against the headteacher and act on the behalf of the governing body
- Ensure every member of staff (including temporary and supply staff and volunteers) and the governing body knows the name of the DSL and their role
- Ensure all staff and volunteers understand their responsibilities in being alert to the signs of abuse and responsibility for referring any concerns to the DSL
- Ensure that parents have an understanding of the responsibility placed on the school and staff for child protection by setting out its obligations on the school's website
- Develop effective links with relevant agencies and co-operate as required with their enquiries regarding safeguarding matters including attendance at strategy meetings, initial case conferences, core group and child in need review meetings
- Ensure that the duty of care towards its pupils and staff is promoted by raising awareness of illegal, unsafe and unwise behaviour and assist staff to monitor their own standards and practice
- Be aware of and follow procedures set out by Children's Services and the HSCB where an allegation is made against a member of staff or volunteer
- Ensure safer recruitment practices are always followed.

Our procedures will be reviewed annually and up-dated in accordance with current legislation.

When staff join our school they will be informed of the safeguarding children arrangements in place. They will be made aware of this policy and told who the DSL is and who acts in their absence. The induction programme will include basic safeguarding information relating to signs and symptoms of abuse, how to manage a disclosure from a child, when and how to record a concern about the welfare of a child.

Principles and Values

- Children have a right to feel secure and cannot learn effectively unless they do so.
- All children regardless of age, gender, race, ability, sexuality, religion, culture or language have a right to be protected from harm.
- All staff have a key role in prevention of harm and an equal responsibility to act on any suspicion or disclosure that may indicate a child is at risk of harm, either in the school or in the community, taking into account contextual safeguarding, in accordance with the guidance.
- We acknowledge that working in partnership with other agencies protects children and reduces risk and so we will engage in partnership working throughout the child protection process to safeguard children.
- Whilst the school will work openly with parents as far as possible, the school reserves the right to contact children's social care or the police, without notifying parents if this is in the child's best interests.

Training

All staff in our school are expected to be aware of the signs and symptoms of abuse and must be able to respond appropriately. Training is provided every year with separate training to all new staff on appointment. The DSL will attend formal training at least every other year and keep themselves up to date with informal training each year to enable them to fulfil their role.

Any update in national or local guidance will be shared with all staff in briefings and then captured in the next whole school training. This policy will be updated during the year to reflect any changes brought about by new guidance.

Referral

Following any concerns raised by staff, the DSL will assess the information and consider if significant harm has happened or there is a risk that it may happen. If the evidence suggests the threshold of significant harm, or risk of significant harm has been reached; or they are not clear if the threshold is met, then the DSL will contact children's social care and if appropriate the police. If the DSL is not available or there are immediate concerns, the staff member will refer directly to children's social care

Generally the DSL will inform the parents prior to making a referral however there are situations where this may not be possible or appropriate.

N.B. The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the teacher to report directly to the police.

Confidentiality

- We maintain that all matters relating to child protection are to be treated as confidential and only shared as per the 'Information Sharing Advice for Practitioners' (DfE 2015) guidance
- Information will only be shared with agencies who we have a statutory duty to share with or individuals within the school who 'need to know'.
- There is a lawful basis for child protection concerns to be shared with agencies who have a statutory duty for child protection.
- All staff are aware that they cannot promise a child to keep a disclosure confidential.

As a school we will educate and encourage pupils to keep safe through:

- The content of the curriculum
- A school ethos which helps children to feel safe and able to talk freely about their concerns, believing that they will be listened to and valued.

Dealing with allegations against staff

If a concern is raised about the practice or behaviour of a member of staff this information will be recorded and passed to the headteacher Paul Van Walwyk. The local authority designated officer (LADO) will be contacted and the relevant guidance will be followed

If the allegation is against the headteacher, the person receiving the allegation will contact the nominated governor (Laura Bell) directly.

Dealing with allegations against pupils

If a concern is raised that there is an allegation of a pupil abusing another pupil within the school, the 'dealing with allegations against pupils' guidance will be followed (Annex 6)

Roles and responsibilities within Wolverdene Special School

Staff responsibilities

All staff have a key role to play in identifying concerns early and in providing help for children. To achieve this they will:

- Establish and maintain an environment where children feel secure, are encouraged to talk and are listened to.
- Ensure children know that there are adults in the school whom they can approach if they are worried about any problems.
- Plan opportunities within the curriculum for children to develop the skills they need to assess and manage risk appropriately and keep themselves safe.
- Attend training in order to be aware of and alert to the signs of abuse.
- Maintain an attitude of "it could happen here" with regards to safeguarding.
- Record their concerns if they are worried that a child is being abused and report these to the relevant person as soon as practical that day.

- If the disclosure is an allegation against a member of staff they will follow the allegations' procedures (Annex 5).
- Follow the procedures set out by the HSCB and take account of guidance issued by the DfE.
- Support pupils in line with their child protection plan.
- Treat information with confidentiality but never promising to "keep a secret".
- Notify DSL of any child on a child protection plan who has unexplained absence.
- In the context of early help, staff will notify colleagues and/or parents of any concerns about their child(ren), and provide them with, or signpost them to, opportunities to change the situation.
- Liaise with other agencies that support pupils and provide early help.
- Ensure they know who the designated safeguarding lead (DSL) and deputy DSL are and know how to contact them.
- Have an awareness of the Child Protection Policy, the Behaviour Policy, the Staff Code of Conduct, procedures relating to the safeguarding response for children who go missing from education and the role of the DSL.

Senior management team responsibilities:

- Contribute to inter-agency working in line with guidance (Working Together 2018)
- Provide a co-ordinated offer of early help when additional needs of children are identified
- Ensure staff are alert to the various factors that can increase the need for early help (*para 17 KCSiE 2018*)
- Working with children's social care, support their assessment and planning processes including the schools attendance at conference and core group meetings
- Carry out tasks delegated by the governing body such as training of staff; safer recruitment; maintaining a single central register
- Provide support and advice on all matters pertaining to safeguarding and child protection to all staff regardless of their position within the school
- Treat any information shared by staff or pupils with respect and follow procedures
- Ensure that allegations or concerns against staff are dealt with in accordance with guidance from department for education (DfE), Hampshire safeguarding children board (HSCB) and Hampshire county council (HCC)

Governing body responsibilities

- The school has effective safeguarding policies & procedures including a child protection policy and a staff code of conduct and a response to children who go missing from education.
- HSCB is informed annually about the discharge of duties via the safeguarding audit
- Recruitment, selection and induction follows safer recruitment practice.
- Allegations against staff are dealt with by the headteacher.
- A member of the senior staff team is designated as designated safeguarding lead (DSL) and have this recorded in their job description
- Staff have been trained appropriately and this is updated in line with guidance
- Any safeguarding deficiencies or weaknesses are remedied without delay
- They have identified a nominated governor for allegations against the headteacher

DSL responsibilities (*to be read in conjunction with DSL role description in KCSiE 2018*)

**In this school the DSL is Paul Van Walwyk
The deputy DSL is Dwane Eacock**

There is a nominated safeguarding governor, **Carol Rooke**, who will take leadership responsibility for safeguarding. The Chair of Governors **Laura Bell** will receive reports of allegations against the Headteacher and act on the behalf of the governing body

As an employer we comply with the “Disqualification under the childcare act 2006 guidance issued in February 2015

In addition to the role of staff and senior management team the DSL will:

- Refer cases to social care, and the police where appropriate, in a timely manner avoiding any delay that could place the child at more risk.
- Assist the Governing Body in fulfilling their safeguarding responsibilities set out in legislation and statutory guidance
- Attend initial training for the role and refresh this every two years. By attending the initial refresher training and then demonstrating evidence of continuing professional development thereafter.
- Ensure every member of staff knows who the DSL is, is aware of the DSL role and has their contact details
- Ensure all staff and volunteers understand their responsibilities in being alert to the signs of abuse and responsibility for referring any concerns to the DSL
- Ensure that whole school training occurs annually so that staff and volunteers can fulfil their responsibilities
- Ensure any members of staff joining the school outside of this training schedule receive induction prior to commencement of their duties
- Keep written records of child protection concerns securely and separately from the main pupil file and use these records to assess the likelihood of risk
- Ensure that copies of safeguarding records are transferred accordingly (separate from pupil files) when a child transfers school
- Ensure that where a pupil transfers school and is on a child protection plan or is a child looked after, the information is passed to the new school immediately and that the child’s social worker is informed
- Link with the HSCB to make sure staff are aware of training opportunities and the latest local policies on safeguarding
- Develop, implement and review procedures in our school that enable the identification and reporting of all cases, or suspected cases, of abuse
- Meet any other expectations set out for DSLs in KCSiE 2018

Review

This Child Protection Policy will be reviewed annually.

Wolverdene Special School child protection procedures

Overview

The following procedures apply to all staff working in the school and will be covered by training to enable staff to understand their role and responsibility.

The aim of our procedures is to provide a robust framework which enables staff to take appropriate action when they are worried a child is being abused.

The prime concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.

If a member of staff suspects abuse or they have a disclosure of abuse made to them they must:

1. Make an initial record of the information
2. Report it to the DSL immediately
3. The DSL will consider if there is a requirement for immediate medical intervention, however urgent medical attention should not be delayed if DSL or headteacher are not immediately available (see point 8 below)
4. Make an accurate record (which may be used in any subsequent court proceedings) as soon as possible and within 24 hours of the occurrence, of all that has happened, including details of:
 - Dates and times of their observations
 - Dates and times of any discussions they were involved in.
 - Any injuries
 - Explanations given by the child / adult
 - What action was taken
 - Any actual words or phrases used by the child

The records must be signed and dated by the author or / equivalent on electronic based records

5. In the absence of the DSL or their Deputy, be prepared to refer directly to Children's Social Care (and the police if appropriate) if there is the potential for immediate significant harm

Following a report of concerns from a member of staff, the DSL must:

1. Decide whether or not there are sufficient grounds for suspecting significant harm in which case a referral must be made to children's social care and the police if appropriate.
2. Normally the school should try to discuss any concerns about a child's welfare with the family and where possible to seek their agreement before making a referral to children's social care. However, in accordance with DfE guidance, this should only be

done when it will not place the child at increased risk or could impact a police investigation. The child's views should also be taken into account.

3. If there are grounds to suspect a child is suffering, or is likely to suffer, significant harm they must contact children's social care via the children's reception team (CRT) on 01329 225379 and make a clear statement of:
 - the known facts
 - any suspicions or allegations
 - whether or not there has been any contact with the child's family

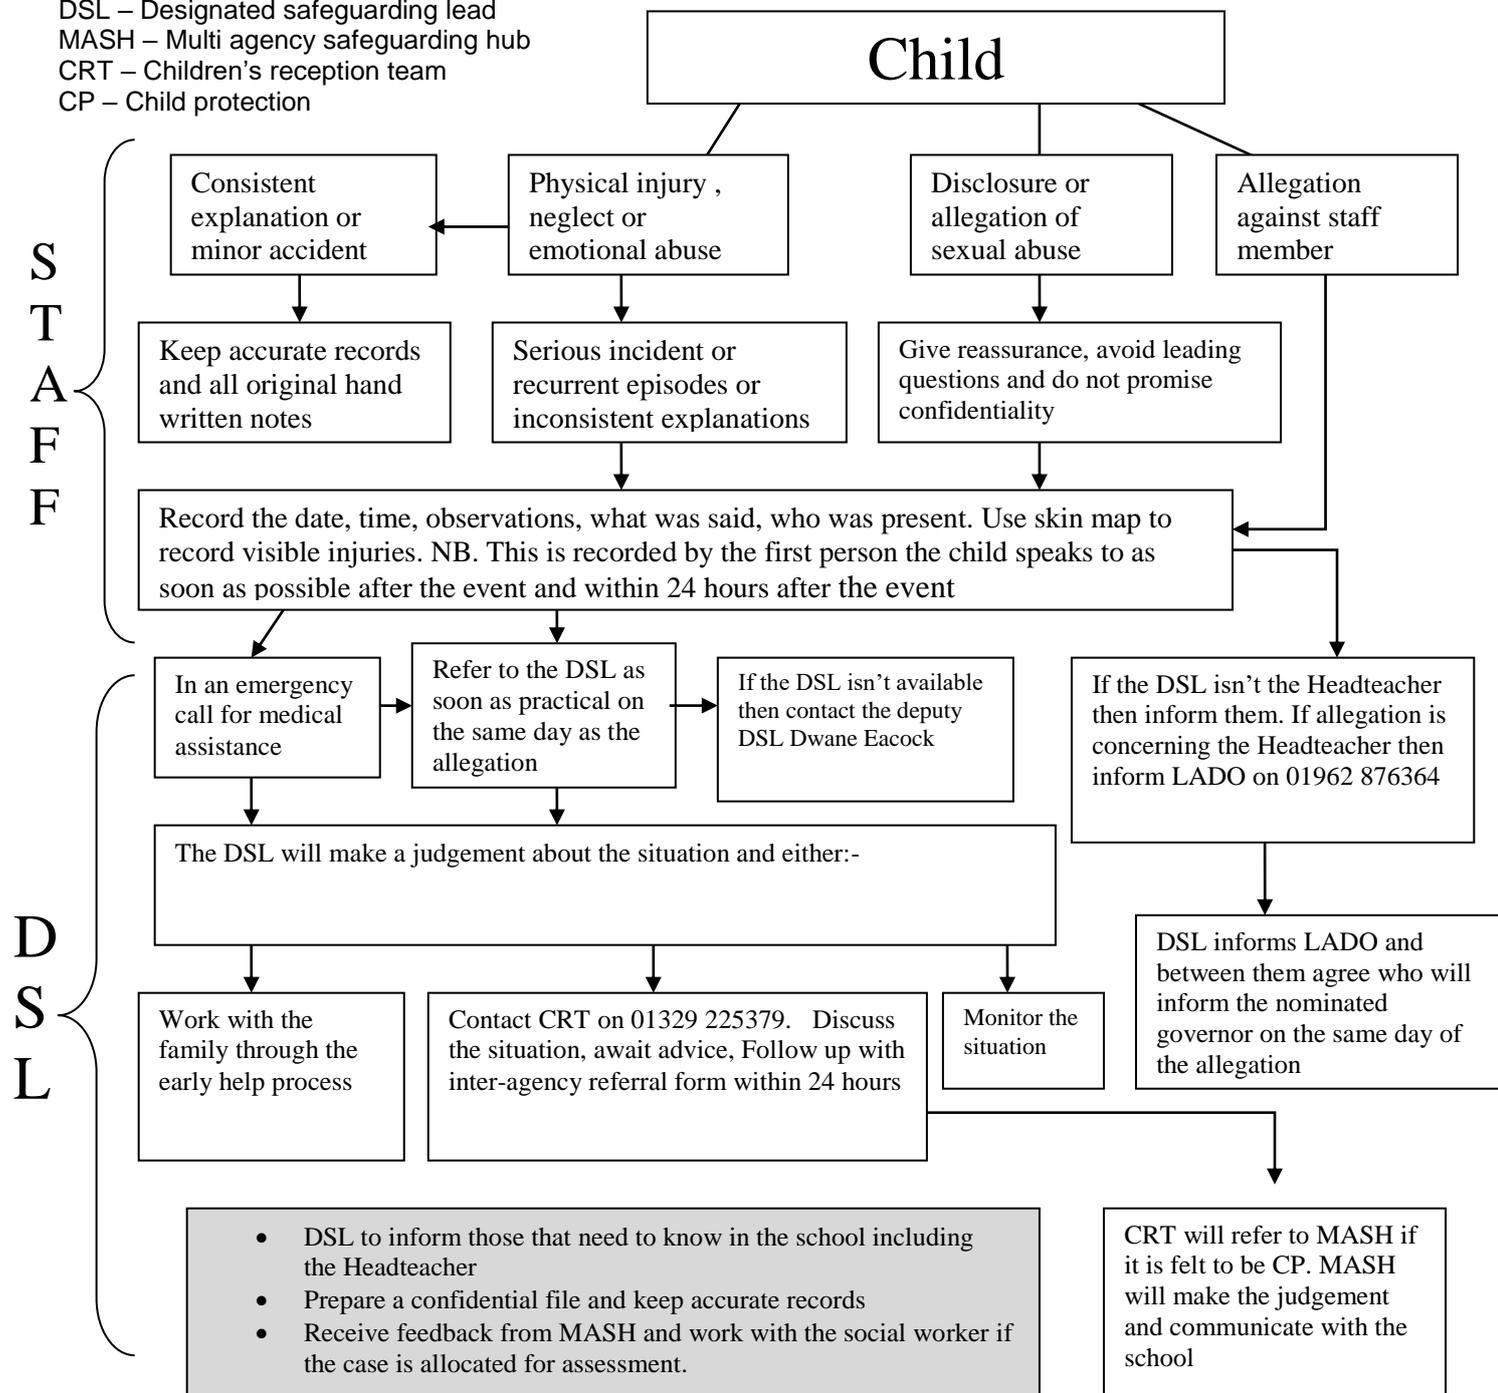

If the DSL feels unsure about whether a referral is necessary they can phone children's reception team (CRT) to discuss concerns

4. If there is not a risk of significant harm, then the DSL will either actively monitor the situation or consider the early help process
5. The DSL must confirm any referrals in writing to children's social care, within 24 hours, including the actions that have been taken. The written referral should be made using the inter-agency referral form (IRAF) which will provide children's social care with the supplementary information required about the child and family's circumstances. (IRAF can be accessed at the following link <https://www.hants.gov.uk/socialcareandhealth/childrenandfamilies/contacts>)
6. If a child is in immediate danger and urgent protective action is required, the police should be called. The DSL should also notify children's social care of the occurrence and what action has been taken
7. Where there are doubts or reservations about involving the child's family, the DSL should clarify with children's social care or the police whether, the parents should be told about the referral and, if so, when and by whom. This is important in cases where the police may need to conduct a criminal investigation.
8. When a pupil is in need of *urgent* medical attention and there is suspicion of abuse the DSL or headteacher should take the child to the accident and emergency unit at the nearest hospital, having first notified children's social care. The DSL should seek advice about what action children's social care will take and about informing the parents, remembering that parents should normally be informed that a child requires urgent hospital attention.

Name of completer: _____

Any additional information:

Dealing with disclosures**All staff should:**

A member of staff who is approached by a child should listen positively and try to reassure them. They cannot promise complete confidentiality and should explain that they may need to pass information to other professionals to help keep the child or other children safe. The degree of confidentiality should always be governed by the need to protect the child.

Additional consideration needs to be given to children with communication difficulties and for those whose preferred language is not English. It is important to communicate with them in a way that is appropriate to their age, understanding and preference.

All staff should know who the DSL is and who to approach if the DSL is unavailable. Ultimately, all staff have the right to make a referral to the police or social care directly and should do this if, for whatever reason, there are difficulties following the agreed protocol, e.g. they are the only adult on the school premises at the time and have concerns about sending a child home.

Guiding principles, the seven R's**Receive**

- Listen to what is being said, without displaying shock or disbelief
- Accept what is said and take it seriously
- Make a note of what has been said as soon as practicable

Reassure

- Reassure the pupil, but only so far as is honest and reliable
- Don't make promises you may not be able to keep e.g. 'I'll stay with you' or 'everything will be alright now' or 'I'll keep this confidential'
- Do reassure e.g. you could say: 'I believe you', 'I am glad you came to me', 'I am sorry this has happened', 'We are going to do something together to get help'

Respond

- Respond to the pupil only as far as is necessary for you to establish whether or not you need to refer this matter, but do not interrogate for full details
- Do not ask 'leading' questions i.e. 'did he touch your private parts?' or 'did she hurt you?' Such questions may invalidate your evidence (and the child's) in any later prosecution in court
- Do not criticise the alleged perpetrator; the pupil may care about him/her, and reconciliation may be possible
- Do not ask the pupil to repeat it all for another member of staff. Explain what you have to do next and whom you have to talk to. Reassure the pupil that it will be a senior member of staff

Report

- Share concerns with the designated safeguarding lead as soon as possible
- If you are not able to contact your designated safeguarding lead, and the child is at risk of immediate harm, contact the children's services department directly
- If you are dissatisfied with the level of response you receive following your concerns, you should press for re-consideration

Record

- If possible make some very brief notes at the time, and write them up as soon as possible
- Keep your original notes on file
- Record the date, time, place, persons present and noticeable nonverbal behaviour, and the words used by the child. If the child uses sexual 'pet' words, record the actual words used, rather than translating them into 'proper' words
- Complete a body map to indicate the position of any noticeable bruising
- Record facts and observable things, rather than your 'interpretations' or 'assumptions'

Remember

- Support the child: listen, reassure, and be available
- Complete confidentiality is essential. Share your knowledge only with appropriate professional colleagues
- Try to get some support for yourself if you need it

Review (led by DSL)

- Has the action taken provided good outcomes for the child?
- Did the procedure work?
- Were any deficiencies or weaknesses identified in the procedure? Have these been remedied?
- Is further training required?

What happens next?

It is important that concerns are followed up and it is everyone's responsibility to ensure that they are. The member of staff should be informed by the DSL what has happened following the report being made. If they do not receive this information they should be proactive in seeking it out.

If they have concerns that the disclosure has not been acted upon appropriately they might inform the safeguarding governor of the school and/or may ultimately contact the children's services department.

Receiving a disclosure can be upsetting for the member of staff and schools should have a procedure for supporting them after the disclosure. This might include reassurance that they have followed procedure correctly and that their swift actions will enable the allegations to be handled appropriately.

In some cases additional counselling might be needed and they should be encouraged to recognise that disclosures can have an impact on their own emotions.

Allegations against staff

Procedure

This procedure should be used in all cases in which it is alleged a member of staff or volunteer in a school has:

- **behaved in a way that has harmed a child, or may have harmed a child;**
- **possibly committed a criminal offence against or related to a child; or**
- **behaved towards a child or children in a way that indicates he or she would pose a risk of harm to children**

In dealing with allegations or concerns against an adult in the school, staff must:

- Report any concerns about the conduct of any member of staff or volunteer to the Headteacher or the DSL as soon as possible
- If an allegation is made against the Headteacher, the concerns need to be raised with the LADO or nominated governor as soon as possible
- There may be situations when the Headteacher or Chair of Governors will want to involve the police immediately if the person is deemed to be an immediate risk to children or there is evidence of a possible criminal offence.
- Once an allegation has been received by the Headteacher or nominated governor they will contact the Local Authority Designated Officer on 01962 876364 or child.protection@hants.gov.uk as soon as possible and before carrying out any investigation into the allegation other than preliminary enquiries.
- Inform the parents of the allegation unless there is a good reason not to

In liaison with the LADO, the school will determine how to proceed and if necessary the LADO will refer the matter to children's social care and/or the police.

If the matter is investigated internally, the LADO will advise the school to seek guidance from their personnel/HR provider in following procedures set out in chapter 4 of 'Keeping Children Safe in Education' (2018) and the HSCB procedures

http://4lscb.proceduresonline.com/hampshire/p_alleg_against_staff.html .

Managing allegations against other pupils

Sexual violence and sexual harassment between children in schools and colleges

Peer on Peer Abuse

Context

Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment as well as their emotional well-being. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and offline (both physically and verbally) and are never acceptable. It is important that all victims are taken seriously and offered appropriate support.

Reports of sexual violence and sexual harassment are extremely complex to manage. It is essential that victims are protected, offered appropriate support and every effort is made to ensure their education is not disrupted. It is also important that other children, adult students and school and college staff are supported and protected as appropriate.

Policy

We believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults in the school and other children.

We recognise that children are capable of abusing their peers and this will be dealt with under our child protection policy and in line with KCSiE (2018)

We are clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up

We will minimise the risk of peer on peer abuse by:-

Prevention:

- Taking a whole school approach to safeguarding & child protection
- Providing training to staff
- Providing a clear set of values and standards, underpinned by the school's behaviour policy and pastoral support system, and by a planned programme of evidence based content delivered through the curriculum.
- Engaging with specialist support and interventions.

Responding to reports of sexual violence and sexual harassment:

- Children making a report of sexual violence or sexual harassment will be taken seriously, kept safe and be well supported.
- If the report includes an online element staff will be mindful of the Searching, Screening and Confiscation: advice for schools (DfE 2018) guidance.

- Staff taking the report will inform the DSL or their Deputy as soon as practicably possible but at least within 24 hours.
- Staff taking a report will never promise confidentiality.
- Parents or carers will normally be informed (unless this would put the child at greater risk).
- If a child is at risk of harm, is in immediate danger, or has been harmed, a referral will be made to Children's Social Care (01329 225379).

Risk Assessment:-

Following a report the DSL will make an immediate risk and needs assessment on a case-by-case basis.

The Risk assessment will consider;

- The victim, especially their protection and support.
- The alleged perpetrator, their support needs and any discipline action.
- All other children at the school.
- The victim and the alleged perpetrator sharing classes and space at school.

The risk assessment will be recorded and kept under review.

Where there has been other professional intervention and/or other specialist risk assessments, these professional assessments will be used to inform the school's approach to supporting and protecting pupils.

Action: The DSL will consider:-

- The wishes of the victim.
- The nature of the incident including whether a crime has been committed and the harm caused.
- Ages of the children involved.
- Developmental stages of the children.
- Any power imbalance between the children.
- Any previous incidents.
- Ongoing risks.
- Other related issues or wider context.

Options: The DSL will manage the report with the following options:-

- Manage internally
- Early Help
- Refer to Childrens Social Care
- Report to the police (generally in parallel with a referral to Social Care)

Ongoing Response:

- The DSL will manage each report on a case by case basis and will keep the risk assessment under review.
- Where there is a criminal investigation into a rape, assault by penetration or sexual assault, the alleged perpetrator should be removed from any classes they share with the victim.
- The DSL will consider how best to keep the victim and perpetrator a reasonable distance apart on school premises and on transport where appropriate.
- Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, the school will take suitable action. In all but the most exceptional of circumstances, the rape or assault is likely to constitute a serious breach of discipline and lead to the view that allowing the perpetrator to remain in the same school or college would

seriously harm the education or welfare of the victim (and potentially other pupils or students).

- Where a criminal investigation into sexual assault leads to a conviction or caution, the school or college will, if it has not already, consider any suitable sanctions in light of their behaviour policy, including consideration of permanent exclusion. Where the perpetrator is going to remain at the school or college, the principle would be to continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to manage potential contact on school and college premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.
- The victim, alleged perpetrator and other witnesses (children & adults) will receive appropriate support and safeguards on a case-by-case basis.
- The school will take any disciplinary action against the alleged perpetrator in line with behaviour and discipline in schools.
- The school recognises that taking disciplinary action and providing appropriate support are not mutually exclusive actions and will occur at the same time if necessary.

Physical Abuse

While a clear focus of peer on peer abuse is around sexual abuse and harassment, physical assaults and initiation violence and rituals from pupils to pupils can also be abusive. These are equally not tolerated and if it is believed that a crime has been committed, will be reported to the police.

The principles from the anti-bullying policy will be applied in these cases, with recognition that any police investigation will need to take priority.

KCSiE (DfE 2018)

Sexual Violence and Sexual Harassment between Children in Schools and Colleges (DfE 2018)

Briefing sheet for temporary and supply staff

For supply staff and those on short contracts in Wolverdene Special School

While working in Wolverdene Special School, you have a duty of care towards the children/pupils/students here. This means that at all times you should act in a way that is consistent with their safety and welfare.

In addition, if at any time you have a concern about a child or young person, particularly if you think they may be at risk of abuse or neglect, it is your responsibility to share that concern with the school designated safeguarding lead (DSL), who is **Paul Van Walwyk, Headteacher** and can be found in the office at the front of the school or through speaking to staff in the school office.

This is not an exhaustive list but you may have become concerned as a result of:

- observing a physical injury, which you think may have been non-accidental
- observing something in the appearance of a child or young person which suggests they are not being sufficiently well cared for
- observing behavior that leads you to be concerned about a child or young person
- a child or young person telling you that they have been subjected to some form of abuse

In any of the circumstances listed here, you must write down what you saw or heard, date and sign your account, and give it to the DSL. This may be the beginning of a legal process – it is important to understand that legal action against a perpetrator can be seriously damaged by any suggestion that the child has been led in any way.

If a child talks to you about abuse, you should follow these guidelines:

- Rather than directly questioning the child, just listen and be supportive
- Never stop a child who is freely recalling significant events, but don't push the child to tell you more than they wish
- Make it clear that you may need to pass on information to staff in other agencies who may be able to help – do not promise confidentiality. You are obliged to share any information relating to abuse or neglect
- Write an account of the conversation immediately, as close to verbatim as possible. Put the date and timings on it, and mention anyone else who was present. Then sign it, and give your record to the designated person/child protection officer, who should contact children's social care if appropriate

The school has a policy on safeguarding children and young people which you can find, together with the local procedures to be followed by all staff, in the policy file in the school office.

Remember, if you have a concern, discuss it with the DSL.

What is child abuse?

The following definitions are taken from *Working together to safeguard children* HM Government (2018). In addition to these definitions, it should be understood that children can also be abused by honour based violence, forced marriage or female genital mutilation. To support the local context, all staff have access to the Hampshire safeguarding children board (HSCB) threshold chart.

What is abuse? A form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults, or another child or children.

Physical abuse A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

Sexual abuse Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Child sexual exploitation Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been

sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

Neglect The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- protect a child from physical and emotional harm or danger
- ensure adequate supervision (including the use of inadequate care-givers)
- ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs. (givers). The HSCB neglect strategy is used to provide more detailed summary of neglect and the local thresholds for referrals.

Extremism Extremism goes beyond terrorism and includes people who target the vulnerable – including the young – by seeking to sow division between communities on the basis of race, faith or denomination; justify discrimination towards women and girls; persuade others that minorities are inferior; or argue against the primacy of democracy and the rule of law in our society.

Extremism is defined in the Counter Extremism Strategy 2015 as the vocal or active opposition to our fundamental values, including the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. We also regard calls for the death of members of our armed forces as extremist.

Indicators of abuse

Neglect

The nature of neglect

Neglect is a lack of parental care but poverty and lack of information or adequate services can be contributory factors.

Far more children are registered to the category of neglect on child protection plans than to the other categories. As with abuse, the number of children experiencing neglect is likely to be much higher than the numbers on the plans.

Neglect can include parents or carers failing to:

- provide adequate food, clothing and shelter
- protect a child from physical and emotional harm or danger
- ensure adequate supervision or stimulation
- ensure access to appropriate medical care or treatment.

NSPCC research has highlighted the following examples of the neglect of children under 12:

- frequently going hungry
- frequently having to go to school in dirty clothes
- regularly having to look after themselves because of parents being away or having problems such as drug or alcohol misuse

- being abandoned or deserted
- living at home in dangerous physical conditions
- not being taken to the doctor when ill
- not receiving dental care.

Neglect is a difficult form of abuse to recognise and is often seen as less serious than other categories. It is, however, very damaging: children who are neglected often develop more slowly than others and may find it hard to make friends and fit in with their peer group.

Neglect is often noticed at a stage when it does not pose a risk to the child. The duty to safeguard and promote the welfare of children (*what to do if your worried a child is being abused* 2015) would suggest that an appropriate intervention or conversation at this early stage can address the issue and prevent a child continuing to suffer until it reaches a point when they are at risk of harm or in significant need.

Neglect is often linked to other forms of abuse, so any concerns school staff have should at least be discussed with the designated person/child protection co-ordinator.

Indicators of neglect

The following is a summary of some of the indicators that may suggest a child is being abused or is at risk of harm. It is important to recognise that indicators alone cannot confirm whether a child is being abused. Each child should be seen in the context of their family and wider community and a proper assessment carried out by appropriate persons. What is important to keep in mind is that if you feel unsure or concerned, do something about it. Don't keep it to yourself. The HSCB neglect strategy provides a more detailed list of indicators of neglect and is available to all staff.

Physical indicators of neglect

- Constant hunger and stealing food
- Poor personal hygiene - unkempt, dirty or smelly
- Underweight
- Dress unsuitable for weather
- Poor state of clothing
- Illness or injury untreated

Behavioural indicators of neglect

- Constant tiredness
- Frequent absence from school or lateness
- Missing medical appointments
- Isolated among peers
- Frequently unsupervised
- Stealing or scavenging, especially food
- Destructive tendencies

Emotional abuse

The nature of emotional abuse

Most harm is produced in *low warmth, high criticism* homes, not from single incidents. Emotional abuse is difficult to define, identify/recognise and/or prove.

Emotional abuse is chronic and cumulative and has a long-term impact.

All kinds of abuse and neglect have emotional effects although emotional abuse can occur by itself.

Children can be harmed by witnessing someone harming another person – as in domestic violence.

It is sometimes possible to spot emotionally abusive behavior from parents and carers to their children, by the way that the adults are speaking to, or behaving towards children. An appropriate challenge or intervention could affect positive change and prevent more intensive work being carried out later on.

Indicators of emotional abuse

Developmental issues

- Delays in physical, mental and emotional development
- Poor school performance
- Speech disorders, particularly sudden disorders or changes.

Behaviour

- Acceptance of punishment which appears excessive
- Over-reaction to mistakes
- Continual self-deprecation (I'm stupid, ugly, worthless etc)
- Neurotic behaviour (such as rocking, hair-twisting, thumb-sucking)
- Self-mutilation
- Suicide attempts
- Drug/solvent abuse
- Running away
- Compulsive stealing, scavenging
- Acting out
- Poor trust in significant adults
- Regressive behaviour – e.g., wetting
- Eating disorders
- Destructive tendencies
- Neurotic behaviour
- Arriving early at school, leaving late

Social issues

- Withdrawal from physical contact
- Withdrawal from social interaction
- Over-compliant behaviour
- Insecure, clinging behaviour
- Poor social relationships

Emotional responses

- Extreme fear of new situations
- Inappropriate emotional responses to painful situations (“I deserve this”)
- Fear of parents being contacted
- Self-disgust
- Low self-esteem
- Unusually fearful with adults
- Lack of concentration, restlessness, aimlessness
- Extremes of passivity or aggression

Physical abuse

The nature of physical abuse

Most children collect cuts and bruises quite routinely as part of the rough and tumble of daily life. Clearly, it is not necessary to be concerned about most of these minor injuries. But accidental injuries normally occur on the *bony prominences* – e.g., shins. Injuries on the *soft* areas of the body are more likely to be inflicted intentionally and should therefore make us more alert to other concerning factors that may be present.

A body map (annex 3) can assist in the clear recording and reporting of physical abuse. The body map should only be used to record observed injuries and no child should be asked to remove clothing by a member of staff of the school.

Indicators of physical abuse / factors that should increase concern

- Multiple bruising or bruises and scratches (especially on the head and face)
- Clusters of bruises – e.g., fingertip bruising (caused by being grasped)
- Bruises around the neck and behind the ears – the most common abusive injuries are to the head
- Bruises on the back, chest, buttocks, or on the inside of the thighs
- Marks indicating injury by an instrument – e.g., linear bruising (stick), parallel bruising (belt), marks of a buckle
- Bite marks
- Deliberate burning may also be indicated by the pattern of an instrument or object – e.g., electric fire, cooker, cigarette
- Scalds with upward splash marks or *tide marks*
- Untreated injuries
- Recurrent injuries or burns
- Bald patches.

In the social context of the school, it is normal to ask about a noticeable injury. The response to such an enquiry is generally light-hearted and detailed. So, most of all, concern should be increased when:

- the explanation given does not match the injury
- the explanation uses words or phrases that do not match the vocabulary of the child (adults words)
- no explanation is forthcoming
- the child (or the parent/carer) is secretive or evasive
- the injury is accompanied by allegations of abuse or assault

You should be concerned if the child or young person:

- is reluctant to have parents/carers contacted
- runs away or shows fear of going home
- is aggressive towards themselves or others
- flinches when approached or touched
- is reluctant to undress to change clothing for sport
- wears long sleeves during hot weather
- is unnaturally compliant in the presence of parents/carers.
- has a fear of medical help or attention
- admits to a punishment that appears excessive.

Sexual abuse

The nature of sexual abuse

Sexual abuse is often perpetrated by people who are known and trusted by the child – e.g., relatives, family friends, neighbours, babysitters, people working with the child in school, faith settings, clubs or activities. Children can also be subject to child sexual exploitation. Sexual exploitation is seen as a separate category of sexual abuse.

Characteristics of child sexual abuse:

- it is often planned and systematic – people do not sexually abuse children by accident, though sexual abuse can be opportunistic
- grooming the child – people who abuse children take care to choose a vulnerable child and often spend time making them dependent
- grooming the child's environment – abusers try to ensure that potential adult protectors (parents and other carers especially) are not suspicious of their motives.

Most people who sexually abuse children are men, but some women sexually abuse too.

Indicators of sexual abuse

Physical observations

- Damage to genitalia, anus or mouth
- Sexually transmitted diseases
- Unexpected pregnancy, especially in very young girls
- Soreness in genital area, anus or mouth and other medical problems such as chronic
- itching
- Unexplained recurrent urinary tract infections and discharges or abdominal pain

Behavioural observations

- Sexual knowledge inappropriate for age
- Sexualised behaviour or affection inappropriate for age
- Sexually provocative behaviour/promiscuity
- Hinting at sexual activity
- Inexplicable decline in school performance
- Depression or other sudden apparent changes in personality as becoming insecure or clinging
- Lack of concentration, restlessness, aimlessness
- Socially isolated or withdrawn
- Overly-compliant behaviour
- Acting out, aggressive behaviour
- Poor trust or fear concerning significant adults
- Regressive behaviour, Onset of wetting, by day or night; nightmares
- Onset of insecure, clinging behaviour
- Arriving early at school, leaving late, running away from home
- Suicide attempts, self-mutilation, self-disgust
- Suddenly drawing sexually explicit pictures
- Eating disorders or sudden loss of appetite or compulsive eating
- Regressing to younger behaviour patterns such as thumb sucking or bringing out discarded cuddly toys
- Become worried about clothing being removed
- Trying to be 'ultra-good' or perfect; overreacting to criticism.

Brook sexual behaviours traffic light tool

Behaviours: age 0 to 5

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability. They are reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours

- holding or playing with own genitals
- attempting to touch or curiosity about other children's genitals
- attempting to touch or curiosity about breasts, bottoms or genitals of adults
- games e.g. mummies and daddies,
- doctors and nurses
- enjoying nakedness
- interest in body parts and what they do
- curiosity about the differences between boys and girls

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours

- preoccupation with adult sexual behaviour
- pulling other children's pants down/skirts up/trousers down against their will
- talking about sex using adult slang
- preoccupation with touching the genitals of other people
- following others into toilets or changing rooms to look at them or touch them
- talking about sexual activities seen on TV/online

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours

- persistently touching the genitals of other children
- persistent attempts to touch the genitals of adults
- simulation of sexual activity in play
- sexual behaviour between young children involving penetration with objects
- forcing other children to engage in sexual play

Brook sexual behaviours traffic light tool adapted from Family Planning Queensland. (2012). Traffic Lights guide to sexual behaviours. Brisbane: Family Planning Queensland, Australia.

Behaviours: age 5 to 9 and 9 to 13

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability and reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours 5-9

- feeling and touching own genitals
- curiosity about other children's genitals
- curiosity about sex and relationships, e.g. differences between boys and girls, how sex happens, where babies come from, same-sex relationships
- sense of privacy about bodies
- telling stories or asking questions using swear and slang words for parts of the body

Green behaviours 9-13

- solitary masturbation
- use of sexual language including swear and slang words
- having girl/boyfriends who are of the same, opposite or any gender
- interest in popular culture, e.g. fashion, music, media, online games, chatting online
- need for privacy
- consensual kissing, hugging, holding hands with peers

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours 5-9

- questions about sexual activity which persist or are repeated frequently, despite an answer having been given
- sexual bullying face to face or through texts or online messaging
- engaging in mutual masturbation
- persistent sexual images and ideas in talk, play and art
- use of adult slang language to discuss sex

Amber behaviours 9-13

- uncharacteristic and risk-related behaviour, e.g. sudden and/or provocative changes in dress, withdrawal from friends, mixing with new or older people, having more or less money than usual, going missing
- verbal, physical or cyber/virtual sexual bullying involving sexual aggression
- LGBT (lesbian, gay, bisexual, transgender) targeted bullying
- exhibitionism, e.g. flashing or mooning
- giving out contact details online
- viewing pornographic material
- worrying about being pregnant or having STIs

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be

excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours 5-9

- frequent masturbation in front of others
- sexual behaviour engaging significantly younger or less able children
- forcing other children to take part in
- sexual activities
- simulation of oral or penetrative sex
- sourcing pornographic material online

Red behaviours 9-13

- exposing genitals or masturbating in public
- distributing naked or sexually provocative images of self or others
- sexually explicit talk with younger children
- sexual harassment
- arranging to meet with an online acquaintance in secret
- genital injury to self or others
- forcing other children of same age, younger or less able to take part in sexual activities
- sexual activity e.g. oral sex or intercourse
- presence of sexually transmitted infection (STI)
- evidence of pregnancy

This is intended to be used as a guide only. Please refer to the guidance tool at <https://www.brook.org.uk/our-work/the-sexual-behaviours-traffic-light-tool> for further information

Print date: 01/10/2015 - Brook has taken every care to ensure that the information contained in this publication is accurate and up-to-date at the time of being published. Brook sexual behaviours traffic light tool adapted from Family Planning Queensland. (2012). Traffic Lights guide to sexual behaviours. Brisbane: Family Planning Queensland, Australia.

Behaviours: age 13 to 17

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability and reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours

- solitary masturbation
- sexually explicit conversations with peers
- obscenities and jokes within the current cultural norm
- interest in erotica/pornography
- use of internet/e-media to chat online
- having sexual or non-sexual relationships
- sexual activity including hugging, kissing, holding hands
- consenting oral and/or penetrative sex with others of the same or opposite gender who are of similar age and developmental ability
- choosing not to be sexually active

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours

- accessing exploitative or violent pornography
- uncharacteristic and risk-related behaviour, e.g. sudden and/or provocative changes in dress,
- withdrawal from friends, mixing with new or older people, having more or less money than usual, going missing
- concern about body image
- taking and sending naked or sexually provocative images of self or others
- single occurrence of peeping, exposing, mooning or obscene gestures
- giving out contact details online
- joining adult- only social networking sites and giving false personal information
- arranging a face to face meeting with an online contact alone

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours

- exposing genitals or masturbating in public
- preoccupation with sex, which interferes with daily function
- sexual degradation/humiliation of self or others
- attempting/forcing others to expose genitals
- sexually aggressive/exploitative behaviour
- sexually explicit talk with younger children
- sexual harassment
- non-consensual sexual activity
- use of/acceptance of power and control in sexual relationships
- genital injury to self or others
- sexual contact with others where there
- is a big difference in age or ability
- sexual activity with someone in authority and in a position of trust
- sexual activity with family members
- involvement in sexual exploitation and/or trafficking
- sexual contact with animals
- receipt of gifts or money in exchange for sex

This is intended to be used as a guide only. Please refer to the guidance tool at <https://www.brook.org.uk/our-work/the-sexual-behaviours-traffic-light-tool> for further information
